STATE OF THE ART IN HEALTH:  
Healthcare Innovation and New  
Care Models

October 26<sup>th</sup> and 27<sup>th</sup>

Organize:

CLUSTER  
SAÚDE DE  
GALICIA

COLLABORATORS:

## SPONSORS

# INDEX

- Introduction
- Sponsors
- President's Greeting
- Committee
- Speakers
- #RIES22 Awards

**#RIES** is the international reference forum at a national and international level to address the challenges and opportunities of the health ecosystem. Led by the CSG (Cluster Saúde de Galicia), it has been created as a meeting forum between the main agents of the public and private health and socio-health sectors at a European level in collaboration with our strategic partners of the **#ComunidadCSG #RIES22** returns to Santiago de Compostela for its seventh edition. This year's **VII Forum RIES 2022** focuses on addressing the innovative solutions that have been developed to improve care and the challenge of pairing this progress with an impact on care models.

### **CSG - Cluster Saúde de Galicia**

The CSG is made up of patient associations, entrepreneurs, startups, SMEs, multinationals, as well as universities, technology centers, biomedical foundations, non-profit associations, professional associations, and collaborators from transverse fields of the health and socio-health sectors.

Since our establishment more than 10 years ago, we have managed to carry out large projects and have expanded our ecosystem. Today we incorporate a hundred entities that include users, industry, and regulators, who are committed to Galicia as an advocate for innovation in health, supporting and promoting the competitiveness of this sector.

We have managed to position ourselves as a professional collaboration platform for global projects and alliances, and as a catalyst for the needs and concerns of its associates.

Our common objective is to continue creating global alliances for the economic and social development of Galicia. Our purpose is to position the CSG as the benchmark for the future of the Galician health ecosystem, generating the trust of our associates in the search for continuous improvement and innovation, and generating high-value-added services

### VII Fórum RIES: Healthcare innovation and new care models

This year, the CSG collaborates with the Chamber of Commerce of A Coruña to combine the celebration of **#RIES22** (26th and 27th of October - Santiago de Compostela) with the **EXPORPYMES** event (25th of October - A Coruña) in order to promote the international visibility of the projects created in our ecosystem and the collaboration at a national and international level. This makes Galicia the epicenter of innovative projects in the health industry at a global level

## ¿WHY BECOME A SPONSOR OF #RIES22?

**The VII Fórum RIES:** Healthcare innovation and new care models follows the line of an experience congress and meeting point with a focus on the challenge of innovative health solutions that provide a response to people in different contexts with the aim to encourage and maintain people's well-being and independence.

After the large amount of information to which we are exposed daily and after the success of the last edition, it is clear that the success of #RIES is through positioning itself as a unique meeting and discussion event thanks to selected content and an equally careful selection of participants.

The interactive dynamics will be reiterated to reflect on the most important and current issues of the ecosystem, learn about the actors that operate in it, and obtain information, knowledge, and collaborations that have an impact on the benefit of your entity. The ultimate goal of the event is to generate synergies that promote **R&D** projects that offer technological solutions based on the real needs of people.

## GREETINGS FROM THE PRESIDENT OF THE CSG

The organization of the **VII Forum RIES 2022** is a confirmation that the flagship event of the CSG has become a benchmark for innovation in the health sector. The traction generated by previous editions has made it become an experiential event that seeks to enhance the relational capital that is generated in the **#ComunidadCSG**. We have managed to reserve an annual space for meeting and searching for joint solutions where topics of interest for the well-being of people can be discussed, where all the interest groups participate in the process of searching for solutions.

This year we are again looking forward to hearing from you about what innovative solutions have been developed to improve care in the different health ecosystems and how they have been incorporated into the care models.

**Rocío Mosquera Álvarez**  
Presidenta CSG

## The VII RIES Forum 2022 on Vanguard Health: healthcare innovation and new models of care will be held on October 26 and 27 at AC Palacio del Carmen, Santiago de Compostela

The reference forum of innovation in health at national and international level organized by the Cluster Saúde de Galicia, #RIES22, returns to Santiago de Compostela in its seventh edition. This year the VII Forum RIES 2022: Vanguard Health: healthcare innovation and new care models aims to address the innovative solutions that have been developed for an improvement in care and the challenge of matching this progress with an impact on care models. #RIES22 will be face-to-face, will take place at the AC Palacio del Carmen in Santiago de Compostela, and will take place on October 26 and 27.

The Forum RIES has been transformed into an event that seeks to initiate dialogue, seek synergies and generate actions. It has become an experience congress where contact is prioritized between all attendees who in turn are a key piece of a global innovation ecosystem.

On October 26, the pre-conference will be held, which aims to highlight the speakers, sponsors, collaborators and winners of the VII Forum RIES 2022.

The main day will begin on October 27 at 09:30 and will be focused on being a space to share knowledge and experiences prioritizing the quality of content, face-to-face and the generation of synergies seeking the impact on people. The day will feature keynotes, a round table, guided tours of exhibitors and agoras/networking spaces.

In addition, in order to enhance the international projection of the projects developed in our ecosystem and the collaboration of SMEs nationally and internationally, this year the CSG carries out several actions in parallel throughout the week:

For those interested in the potential of the silver economy market: 24/10/22 launch of the Senior Eco Nect project for the creation of an action plan to make visible and scale projects focused on the +55 sector.

For SMEs: 25/10/22 EXPORPYMES, international fair for SMEs in the health sector, in collaboration with the Chamber of Commerce of A Coruña

For the entire ecosystem that surrounds health in Galicia and national and international collaborations: 25 to 28/10/22 we are accompanied by a delegation from Northern Ireland on reverse mission as a continuation of the mission that the CSG and some of its partners carried out last May and framed within the collaboration agreement signed on that trip.

Galicia is a world center in every year Xacobeo. Forum RIES and the #ComunidadCSG, tries to turn Galicia, even for a few days, into a European epicenter of health and innovative projects in this industry.

**José Noya**

**José Noya**  
Chief Financial Officer

Jose Noya is currently the Chief Financial Officer of Linknovate, Founding Partner of Urbainvest, Urbacolombia, NOYA F.Y.P. SL and INVERSIONES INMOBILIARIAS ROXOS S.L.. entities that take part.

*Presentations are either given in Spanish or in English.  
Simultaneous interpretation services are available for the full #RIES22 Conference*

 **9:30** Opening and context #RIES22**Institutional Table**

- **Jose Noya** – *President #RIES22 Committee*
- **Patricia Fernández Liz** – *Director of the Services Area at GAIN Galician Innovation Agency. Xunta de Galicia.*
- **Norberto Penedo Rey** – *Director of Competitiveness IGAPE*
- **Javier Ventosa Rial** – *Deputy Director General of Social-Health Care and Healthcare Innovation. Ministry of Social Policy and Youth. Xunta de Galicia.*

 **10:00** **Keynote - Alberto Fuentes Losada**

*General Secretary of the Ministry of Health, Xunta de Galicia.*

**Título: “Healthcare innovation in Galicia through technology”**

The strategy of the Ministry of Health has always had a commitment to innovation in all processes and systems. Now more than ever, with an increasingly aging population, we need to follow the path of what has already been done with the continuity of the existing lines of action and with new ones, strengthening public healthcare, continuing with the digital transformation of Primary Care, and strengthening and renewing technologies, infrastructures and systems to empower citizens and improve care processes. All this while being aware that innovation is multidisciplinary and that without well prepared teams, innovations have little viability.

 **10:30 Round Table**

*“Technological Innovation and Care Models from the public and private perspective.”*

*Moderador: **Joan Cornet** – CEO at Innohealth Academy*

**Panelists:**

- *Estrella López-Pardo – Gerente SERGAS*
- *Anton Acevedo Prado – General Director of Comprehensive Social and Health Care. Ministry of Social Policy and Youth. Xunta de Galicia.*
- *Francesc Iglesias – Head of the Innovation and Research Support Office – Management Department*
- *José Antonio García Parada – Manager within the Health and Social Services division. NTT DATA*

 **11:45 Coffee break** **12:15 Keynote - José María Pena Rodríguez** - *Chief Executive Officer DomusVI*

**Título: Creating the future of care**

Demographic pressure and changes in generational habits are going to require new models that allow, on one hand, greater freedom of choice for the elderly and, on the other, care that is more focused on caring for the person. At DomusVI we want to participate and lead this evolution in which innovation and technology will play a leading role

 **12:45 Keynote - Tjaša Sobočan**

*Government Office for Digital Transformation Slovenia*

**Título: Slovenian healthcare system  
In pursuit of a new social agreement for the next 20 years**

Slovenia aims to raise new and better standards on healthcare system with integrated perspective of digital transformation and digital (social) innovations. What is the current status of Slovenian digital healthcare transformation? How does that support endeavours for integrated social and health models? Tjaša Sobočan will deliver a keynote to highlight Slovenian point of view on national healthcare ecosystem and the delivery of changes to the benefit of patient-centered approach

 **13:00 Proyecto social**

*Carol Mitjana Isarn – CEO de I feel, el método.*

*“Today he is 86, tomorrow you will be and only you decide how you want to live it.”*

 **13:15 Ágora DOMUSVI**

*“Technological innovation from the user's perspective”*

🕒 14:00 Visit of authorities and speakers to Showroom #RIES22

🕒 14:30 Lunch

🕒 16:00 **Greeting from D. Francisco Conde López**

*First Vice President and Minister of Economy,  
Industry, and Innovation.  
Xunta de Galicia*

🕒 16:15 Visit of authorities and speakers to Showroom #RIES22

🕒 16:45 **Ágora PlexusTech**

*Do we transform? Do we innovate? Do we digitize?*

 **16:45 Keynote Johan Halvarsson**

*Lead at SuperEcosystem (project manager), Finland*

**Título: Ecosystem development on steroids – SuperEcosystem**

From 0 to 100, in no time. The story of how to capitalize on an opportunity, like COVID-19, where the world closes down and business is interrupted. Hear Johan Halvarsson talk about how they achieved “Think BIG and Act LOCAL” success using both bottom-up and top-down approaches.

Insights include how the SuperEcosystem Meta-Cluster was developed and how they facilitated the collaboration of different sector verticals like Energy and Agri-Food together with Health and Water. Johan Halvarsson will walk you through the evolution of Ecosystems and Clusters and present a use case of how EU level initiatives trickle down to real business growth, with players including regional policy makers and their S3 topics, clusters and ecosystems, down to business.

 **17:45 Coffee break** **18:15 Keynote - Richard J. Banchs**

*Associate Professor, University of Illinois Hospital Chicago*

**Título: Innovation: Barriers to change**

Innovation is defined as the invention, adoption, and diffusion of solutions that achieve improvements in the treatment, diagnosis, prevention, delivery, and access to healthcare. There are numerous barriers to the successful implementation of innovation: technical, regulatory, reimbursement, adoption, and customer based. The framework and strategies to address some of these challenges are described. Examples of initiatives in the US are presented.

**18:45 Proyecto social**

*Javier Pitillas Torra – Founder of DISCAMINO*

**Título: Project DISCAMINO**

**19:00 Keynote - Alfredo H. Remón M**

*National Director of Norms, Standards and Special Verticals.  
National Authority for Government Innovation of Panama*

**Título: Sistema de información Covid19 para la estrategia nacional de vacunación PANAVAC19**

Desarrollo un sistema digital de extremo a extremo que lograra trazabilidad en tiempo real de vacunados y biológicos y poder disponer de Datos reales y confiables para el análisis de datos para la toma de decisiones, y promover la transparencia y confianza en la estrategia de vacunación.

**19:30 Closing and conclusions**

**19:45 Clausura - José Noya - President #RIES22 Committee**

**- Rocío Mosquera Álvarez - Presidente del CSG**
